Secondary School Certificate(Science)
Milestone School and College, Dhaka
2017   *GPA: 5.00*

PROJECTS

Floortech Construction Landing Page (09/2024)
- I have developed an interactive and user-friendly landing page for Floortech Constructions, blending HTML, CSS, and Vanilla JS to showcase their impressive portfolio beautifully
- Github Link: https://github.com/navid001/FloorTech-Construction

Craigslist Web Scraper (03/2022)
- I have built this project using HTML, CSS and Bootstrap as the frontend and Python and Django as the backend and BeautifulSoup and Requests Library to scrape data to build a complete website which can scrape data from Craigslist Website.
- Github Link: https://github.com/navid001/Craigslist-Web-Scraper

Hand Tracking Module (01/2022)
- I have built this app using mediapipe and Opencv library.Through this app I can recognize the fingers of my hand and number the landmarks accordingly. This was a module created to be used as a base of other projects.
- Github Link: https://github.com/navid001/Hand-Tracking-Module

Discord Bot (06/2021)
- I had created a simple discord bot with the basic functionalities using Discord API
- Github Link: https://github.com/navid001/DiscordBot

WORK EXPERIENCE

Vice President
BRAC University Electrical and Electronic Club
01/2023 - 11/2023
- Actively organized and participated in various events and workshops

Technical Support Specialist Intern
NSU Startups Next
01/2024 - 03/2024
- Maintained and implemented features for NSU Startups Next website, ensuring proper performance and positive user experience.
- Collaborated with cross-functional teams to align content with organizational goals and provided thorough documentation for seamless operations
